

2025 Partnership Proposal

Texas Women's Foundation is a community-inspired organization that invests in the power of women and girls to drive positive change. Together with our philanthropic partners, we are investing in research, advocacy, grantmaking and programs to support our vision for an equitable society in which women and girls can fully participate.

Invest in Texas Women and Girls

According to our latest research, women play a pivotal role in the Texas economy, driving its growth and innovation. Yet, Texas women still earn 83% of what their male counterparts earn. And despite earning 1.4 times more college degrees than men, women occupy only 28% of top executive positions.

With the population of Texas women expected to grow to 18.5 million by 2040, the time is now to invest in women's economic security, stability and success with Texas Women's Foundation. Because Texas women and girls have never needed us more!

Why Choose Us

Nearly **\$85 million** invested in Texas women and girls since 1985.

Research-inspired advocacy aimed at driving meaningful systemic change.

One of the largest women's funds in the world with nearly **\$28 million** in assets under management.

Award-winning grant-making process is an industry model.
